Yo G-P here.

Damn. Is it really almost April? It feels like there was January, then stuff happened and now I'm left with a February sized hole. With a chunk of March. Things have been tits up.

Like, *oh shit I gotta move like right now and oh shit why am I working with 39°C fever and oh shit what is this terrible stabbing pain in my upper abdomen*. But everything is clear now.

Imagine my mangadex backlog. I've logged in once or twice in to check if someone else picked up the Kitsune Spirit torch in the meantime. So yeah. We back boys.

Boccantino is a nice treat.

GODDAMN 

I suck at making cat puns. Can we just put a *nya* at the end and call it a day? No? I'm sorry...*nya*.
